

**blackbeetle**  
eco pest solutions

## Why Black Beetle? What's in the name?

We are a company focused on making the lives of our clients, cleaner, safer and more comfortable by taking care of their pest control problems. We believe in personable, customised and safe pest control solutions that is always delivered in a timely and thorough manner.

Apart from the literal connotations of a beetle being part of the insect family and our business being based in Africa. If we look a little deeper, the symbolic meaning of beetles in many cultures offers the following attributes i.e. Protection, Progress, Simplicity, Stability and Potential. These attributes ring true with our business values, our vision & client offerings.

Beetles speak to us of groundedness. They move with bellies always close to the earth, and so their wisdom is sacred and deep. They are connected to the core of earth, and so they are rooted in their knowledge about the way of life and nature. So too is our business rooted in providing eco and pet friendly solutions to our clients as a first point.

## Why Us

- We provide professional service and qualified staff guaranteed.
- A comprehensive range of customisable, targeted treatments at your disposal.
- Safe treatments for families, pets, guests and your staff.
- Tried and tested solutions to ensure results.
- Expert pest prevention advice and affordable rates.
- Eco-friendly products to reduce environmental harm.
- Customisable schedules that don't inconvenience home and business owners.

## The Right Team

We pride ourselves in offering our clients, staff that are well trained and licensed technicians. All technicians are certified with PCITA and all our teams are supervised by registered pest control operators, as well as registered with the Department of Agriculture Forestry and Fisheries. They are personable, knowledgeable and always courteous to our clients needs.

## Our Approach : Environmentally aware.

We offer a wide range of solutions from the traditional spraying programs, to integrated pest management and baiting programs for all types of pest. As our goal is to provide environmentally friendly solutions we give preference to using products and methods which maximize public safety and reduce environmental risks. Rest assured that the safety of your staff, family, pets and most importantly the environment will be given the utmost priority at all times.

# Solutions Driven

We offer safe, effective and fast solutions to remove pests and nasty creepy crawly insects from your property. Our pest control experts provide reliable, safe solutions for interior and exterior pests that will ensure problem pests are eradicated. We service both domestic and commercial clients across numerous industries.

## Commercial

We offer customized pest service programs designed with your unique business in mind. We use integrated pest management principles to prevent pest problems in and around your business while minimizing the impact to you, your employees and your customers. Our commercial pest control services include:

**MANUFACTURING:** Let us address the unique challenges and needs of your facility. Convenient service schedule, After-hours and on weekends to accommodate your business.

**PROPERTY MANAGEMENT:** A pest-free environment is one of the best ways to help maintain high occupancy rates, whether in a residential or office property. We can provide services most convenient for staff & your tenants, including after-hours and weekend service.

**RESTAURANTS:** Pests can carry disease and bacteria into your establishment, creating a potential health risk which could result in fines and sick customers. Our vast knowledge and experience in protecting food service operations allows us to help you comply with health code regulations.

**HEALTH CARE:** Health Care providers cannot afford to have a pest infestation. Pests can create unsanitary conditions that can lead to serious consequences for both your patients and your facility. We will tailor a special program for you. That will provide service that is least disruptive for you and your patients.

**EDUCATIONAL FACILITIES:** Educational facilities are expected to be safe, sanitary environments that are pest-free. We will work with you to provide service that is discreet and convenient, including after-hours and weekend service.

**HOSPITALITY:** The presence of pests not only discourages customers, but can also create a potential risk. Around-the-clock activity, restaurants, meeting rooms, guest rooms and numerous storage areas present unique challenges when it comes to pest control. Let us tailor a program for you. No interruption to your normal operation; After-hours service and weekend service.

## Domestic

We offer you and your family effective, safe and dependable residential pest control services. Treatment methods vary according to the type of pest conditions at the property and homeowner preferences. We will explain all possible options and the advantages and disadvantages of these methods. We offer a wide range of programs from the traditional spraying programs, to integrated pest management and baiting programs for all types of pest.
